Welcome Letter

On behalf of the Organizing Committee,

I would like to extend my warmest welcome to all colleagues from Asia and around the world. It is our great honor to organize **The 9th Conference of the Asian Society of Head & Neck Oncology, The 28th Vietnamese ORL-HNS Congress 2025**

Which will be held on 1st - 2nd November 2025 in Ho Chi Minh City, Vietnam.

Following the tremendous success of previous editions, we are excited to welcome you to this important gathering. This conference marks a unique collaboration between leading scientific communities, combining the expertise of oncologists, otolaryngologists, head and neck surgeons, and nursing professionals. Our goal is to share the latest research, technological advancements, and clinical practices while fostering an environment of multidisciplinary collaboration.

The theme of the conference is "**Advancing Care, Bridging Expertise**". We recognize that there are significant disparities in the management of head and neck cancers between developed and developing regions. With this in mind, the program is designed to address the diverse needs of practitioners across Asia, offering insights into both cutting-edge advancements and the fundamental approaches required for effective care.

The scientific program will feature a broad range of topics, including but not limited to, **head and neck oncology, surgical innovations, otolaryngology research, and nursing care in otorhinolaryngology**. Distinguished speakers from around the globe, along with regional experts, will share their knowledge through plenary sessions, symposia, and hands-on workshops. This is a fantastic opportunity for young doctors to present their research and ideas, with the best presentations being invited to feature in the main symposium.

Ho Chi Minh City, our host city, is an exciting and vibrant destination combining rich cultural heritage and modern urban life. We are confident that participants will benefit from the conference and enjoy the sights and sounds of this dynamic city. From historic landmarks to world-class dining, Ho Chi Minh City offers a unique experience for all attendees.

On behalf of the Organizing Committee, I am excited to greet you all at this landmark event.

Sincerely

President of ASEAN Otorhinolaryngology Head & Neck Federation
President of Vietnamese Society of Otorhinolaryngology

Prof. Tran Phan Chung Thuy
